

Rhythm And Movement Workshop With Souhail Kaspar and Yasmine

Premier Instruction For Belly Dancers And Drummers!

April 17-18, 2010 - Raleigh/Durham, NC

Join Grammy-nominated Arabic percussionist and dance coach [Souhail Kaspar](#) and renowned dancer and teacher **Yasmine** as they teach a special workshop for dancers and drummers!

Egyptian Rhythm & Movement for Dancers: Students will learn the art and personality (downbeats and accents) of common Middle Eastern rhythms; how to interpret all aspects of the music simultaneously to give a complete visual representation of the music; the relationship of dance to every aspect of Middle Eastern music: melody, instrumentation and rhythm; and how to bring each tone of the drum to life via proper body part, movement direction and intensity.

Beginning Drumming: Students will learn the Arabic tablah (doubek) including posture and instrument position, hand control techniques, introductory rhythms and timing. Intermediate students will fine-tune their technique.

Intermediate Drumming: Students will learn more advanced techniques, drills to improve speed while maintaining good form and more advanced rhythms.

Introduction to Riqq (Arabic Tambourine): Students will be introduced to classical and cabaret positions, technique and basic rhythm.

Advanced Drumming: Continuation of the intermediate class. Exact content and level will depend on the make-up of the class.

This is a rare chance to study with a master drummer and sought-after dance coach, as well as see dynamic performers with special music and dance guests perform in a theater setting.
